

It has come to my attention that the K-Love radio station may be replaced with a LPFM station in the future. I have been a K-Love listener and supporter for over many years and would not want to lose this family friendly, spiritually uplifting broadcasting. Not only is it beneficial to me as a listener, it is beneficial to the community by providing an alternative to other stations that do not censor bad language or crude comments in their music and commentary. It is in the public interest for K-Love to remain on the air to provide character building music, commentary and format in a these uncertain time.
